

New policy at the Norwegian University of Science and Technology (NTNU): Incentives for publishing Open Access

2017 = 100%
Open Access

From 2017 all NTNU publications must be archived in NTNU Open* to ensure open access, as stated in the Action Plan for Open Access.

*NTNU's institutional repository

Cristin = Open Access

All publications that are uploaded in Cristin* will be accessible in NTNU Open and thus comply to the Open Access requirements.

*Norway's research documentation system

Processing charges
= NTNU pays

NTNU covers all article processing charges in Open Access journals. You need to apply prior to publishing.

Details and incentives

If an employee doesn't upload a full text file to Cristin, her / his department doesn't get publication points / funding for the publication.

Actions and results so far

Library staff has visited almost all departments and talked about Open Access publishing and the new NTNU OA policy.

Result: More full text files uploaded for registered publications compared to 2016 - up from **18% to 27%** (June 2016-2017).

Future goals: 1) At least 90% of new publications published as green or gold Open Access in 2017. 2) 25% of publications from 2010-16 self-archived till end of 2017.
